

Article for social media:

Made to Stay is a non-profit organization made up of volunteers that provide transportation for seniors and disabled adults who no longer drive. Our mission is to enable them to live on their own as long as they can safely do so. We currently only provide these services in McCracken county Kentucky due to the availability of volunteers to serve them. We have many more seniors and disabled adults who would love to have these services but only have a handful of volunteers that can devote their time and vehicles to take them to their appointments, remain with them, and drive them home. Our volunteers agree that this is a very rewarding service they provide, both to them and the seniors that they transport.

Our greatest need is for volunteers, but we also need financial support. A gift of \$100 can provide services for a senior or disabled adult for 3 months or help with our day-to-day expenses. Most of our members live on fixed incomes, some with a monthly income of less than \$1000 to pay for all their expenses (rent, utilities, insurance, food, meds, etc.) All donations are tax-deductable.
